

FACTORY FOR WATER BOTTLING FOJNICA

Project title	Factory for water bottling in Fojnica
Sector	Agriculture sector
Location	Fojnica Municipality
Location description	The land for the construction of the factory is located in Fojnica, near Sarajevo (57 km) and the port of Ploce, Croatia (200 km). The land for factory of water bottling covers an area of 27 142m ² (construction land 19 000 m ²). It is located only 15km from highway and 28 km from the railroad.
Company description	Saracevic d.o.o. is a private company registered for wholesale of products and semi-products of ferrous and non-ferrous metallurgy. It was established at the end of 2002. and currently there are 62 employees in the company. Saracevic d.o.o. don't have experience with water bottling. When it comes to the water bottling project, the company Sa-Sara d.o.o. was founded in 2022. Fojnica, which is intended only for the project of exploitation of natural spring water.
Project status	The project has been brought to the stage of construction of the production facility and procurement of adequate equipment for bottling water. The company Sa-Sara has all the necessary permits and concession for exploitation 15l/sec. Plan investment has been made 2021 by local experts.
Project description	The company Sa-Sara has all the necessary permits and concession for exploitation 15l/sec. Water is brought to the land where production is planned through a 3.5 km long pipeline with a capacity of 50 l/s. Water analysis was done in Sarajevo, Belgrade, London and Stuttgart (Frezinius Institute). An economic analysis of the 2022 project was also done, but according to the price changes on the market, it is necessary to make a correction. Water quality testing: 1. SGS – INSTITUT FRESENIUS, Germany 2021.
