

## PRODUCTION OF MACHINE TOOLS, HYDRAULIC PRESS-BREAK AND SHEAR

<b>Project title</b>	Production of machine tools, hydraulic press-break and shear in Federation of BiH
<b>Sector</b>	Metal sector
<b>Location</b>	Travnik, Zenica, Sanski Most, Kljuc, Sarajevo in industrial zones
<b>Company description</b>	The future company would be engaged in design, development, research, production and sale of hydraulic machine tools, hydraulic presses and shears as well as related machines using hydraulics and servo-hydraulics.
<b>Project status</b>	In progress, there are available drawings of machines.
<b>Project description</b>	The project relates to the production of machine tools, hydraulic press-breaks and shears it is meant to bending and cutting steel sheets. The project proposer has the necessary knowledge, experience and technical documentation that are sufficient to enter this project and therefore is looking for a trusted partner to share this vision to form a company with in a percentage proportion depending on the input capital. Production would be separate from development, research (R & D) and marketing. All the components would be purchased according to the "out-source" principle and project proposer would ship into a warehouse where only the assembly of the machines would take place. Marketing and accounting services would also be paid and run outside the company. The goal of this project is to effectively manage the company thanks to the new technologies, and using existing resources in BiH, such as inexpensive energy, resources in the metallurgical industry, and trained and valuable labour force.
<b>Estimated total investment cost</b>	app. 150 000 EUR
<b>Inputs provided by local partner</b>	app. 75 000 EUR Administrative costs, salaries, prototype production
<b>Inputs required from foreign partner</b>	app. 75 000 EUR
<b>Form of cooperation with foreign partner</b>	Joint venture
