<tr>
<td>Project background</td>
<td>The project proposer is the owner of 3 innovations in the pallets production:</td>
</tr>
<tr>
<td></td>
<td>- <strong>Global Pallet Innovation</strong>: prefabricated and dismantling solid wood pallet, high geometric precision and high quality woodworking. Global Pallet has guarantees for 10 years.</td>
</tr>
<tr>
<td></td>
<td>- <strong>Innovation machine for the rotational woodworking</strong></td>
</tr>
<tr>
<td></td>
<td>- <strong>Innovative line for production of pallets</strong>, from wood lamella to pallet. The innovative line replaces 20 similar machines in the pallets production process. The Global Pallet was awarded six medals for innovation in places such as Zagreb, Nuremberg, Paris, Novi Sad, etc.</td>

<tr>
<td>Project description</td>
<td>The project proposer already has an established line for the production of prefabricated and dismantling pallets by automated line - line from wood lamella to pallet. The &quot;Study on the Innovation analysis in relation to old classic pallet models&quot; was done. The production capacity is 1000 pallets per day. The pallet value is about 12 EUR, so the value of daily production would be 12 000 EUR.</td>
