The new Minister of Economy of Zenica-Doboj Canton Zlatko Jelić visited FIPA in order to discuss further cooperation with the Agency in identifying new investment projects, which would be presented to interested potential foreign investors in BiH and abroad.

The FIPA Director Gordan Milinić informed Mr Jelić on cooperation that FIPA has with municipalities of Zenica-Doboj Canton for many years (which are members of the Network of Cooperation for Support to Foreign Investors in BiH), on joint work to remove obstacles to foreign investors who are running business in this area as well as on visits to investment locations organized by FIPA for foreign investors in 2016. In its database, FIPA currently has 6760 potential foreign investors with whom it has regular contacts and offers them investment projects in BiH, including the projects of the Canton.

The Minister Jelić stressed the need for new investments in this Canton. Adoption of the Law on Public-Private Partnership provides new opportunities to attract foreign investors.

It was agreed that the Ministry of Economy of Zenica-Doboj Canton encourage the development of new investment projects in various sectors of the economy, so that FIPA had a richer offer for foreign investors. Both institutions will be involved in proposing joint events with the aim to present investment opportunities to foreign investors, as well as to strengthen cooperation with potential investors from the BiH diaspora originating from this region.

## FIPA PARTICIPATED AT A TRILATERAL FORUM SAUDI ARABIA-SERBIA-BOSNIA AND HERZEGOVINA

Blaženka Mišković, Deputy Director of the Foreign Investment Promotion Agency of BiH (FIPA) took part in a two-day visit of the joint delegation of officials and businessmen from Bosnia and Herzegovina and the Republic of Serbia to the Kingdom of Saudi Arabia on 29 and 30 January.

The first day of the visit, delegations of the two countries had meetings with the ministers of the Ministry of Environment, Water and Agriculture, Ministry of Trade and Investment, the Ministry of Construction and Housing and the Commission for Tourism and National Heritage of the Kingdom of Saudi Arabia under the auspices of Sultan bin Salman al Saud.

A meeting with the company SALIC, the largest state-owned company in the field of agriculture, was held in the Ministry of Environment, Water and Agriculture.

Trilateral Forum Saudi Arabia-Serbia-Bosnia and Herzegovina was held the second day of the visit and on this occasion Mrs. Mišković had a presentation on investment opportunities in Bosnia and Herzegovina with an emphasis on the sectors of wood industry, agriculture, metal sector, energy and tourism.

Numerous contacts were established with businessmen of Saudi Arabia who have expressed interest in investing in BiH. The delegation of Bosnia and Herzegovina was also composed of representatives of nine BiH companies from the metal sector, food industry, etc.

## FIPA PARTICIPATED AT AN ECONOMIC FORUM IN POLAND

The Director of the Foreign Investment Promotion Agency of BiH (FIPA) Gordana Milinić participated at the Economic Forum in Poland held on 27-28 January 2017 in Rzeszow, Poland.

As participant of the panel on the business climate and investments, the Director Milinić spoke about the advantages of BiH for foreign investments, FIPA promotional activities and communication with potential and existing investors, and on the Agency's activities on improving the business environment. In presence of political leaders and investors from all European Union, it was also discussed about the fight against corruption, improvement of the business climate, investment infrastructure, investment financing and the role of the EU in encouraging investments.

It was concluded that the faster process of accession of Bosnia and Herzegovina to the European Union can certainly contribute to the intensification of investing and political stability as one of the biggest obstacles in BiH for more significant investments. He also made a series of discussions with interested investors and representatives of international institutions, and a special interest was shown in spa and medical tourism in BiH.

## FIPA SIGNED AN AGREEMENT ON COOPERATION WITH NGO HORIZONT 2024

Recognizing the importance of the NGO sector for the social and economic development of Bosnia and Herzegovina, FIPA has signed an Agreement on Cooperation with the Union for the Support to Economic and Social Development Horizont 2024.

By signing this Agreement, FIPA and the Union, together with other institutions and organizations, will be partners in organization and implementation of the regional project of "Regional Forum for Market, Investment and Statistics – TIS" which aims to initiate cooperation between institutions in the region for development and organization of concrete regional projects and exchange of experiences in the field of market, investment, statistics and NGO sector. This document also foresees cooperation to support the development of strategies, plans and projects of the development in the economic and social domains through research and analytical work.

Partners will among other participate jointly in determined projects towards donors, sponsors, funds and other institutions.

One of the essential instruments for the realization of this initiative is the organization of conferences and round tables of the regional character on the topic of the market, investment and statistics with the aim to contribute to the further affirmation of the possibilities of regional markets and opportunities for investing.

## FIPA AND MINISTRY OF ENVIRONMENT AND TOURISM OF FBiH

The Director of the Foreign Investment Promotion Agency of BiH (FIPA) Gordan Milinić and the Minister of the FBiH Ministry of Environment and Tourism Edita Čapo met to discuss joint activities in order to attract foreign investors in projects of tourism and environment protection, and to organize joint promotion of the currently available from these fields. Commenting on the trend of inflow of foreign investments in BiH in recent years, Mr Milinić pointed out the fact that the political turbulences in the second and third quarter of 2016 (organizing a referendum in the function of the election campaign of SNSD, and in this regard recalling secession and war by some parties) are directly related to the decline in the inflow of foreign investments. In this period, at the beginning of meeting at FIPA, potential investors made questions about the political situation and expressed concern for capital that they would eventually invested. Speaking about activities of FIPA on promotion of BiH as an investment location, the Director Milinić pointed out among other things that the promotion itself cannot compensate shortcomings of the system, and that all relevant institutions should be engaged on the removal of barriers to facilitate running business in our country. In its database of contacts, FIPA has 6,700 potential investors with whom it communicates through various communication channels on investment opportunities and that FIPA wants to animate to show greater interest in the BiH projects. Among more than 500 investment projects and locations that FIPA offers to foreign investors, there is a larger number of projects in the field of tourism, for which there is a great interest of foreign investors. The Minister presented information on 100 investment projects of the Government of FBiH among which there are projects of tourism and the environment, and that the Ministry is currently working on creating recycling yards in FBiH.

It was concluded that problems related to the environment protection slow down faster coming of foreign investors in certain projects, including some energy projects worth several billion of BAM. It was agreed that FIPA and Ministry jointly participate in conferences where projects in the field of tourism and the environment are promoted and where all relevant institutions are trying to attract as many foreign investors, and that this year they organize an Investment Conference on investing in tourism in Bosnia and Herzegovina.

## MEETING OF FIPA AND CBBiH

The Director of the Foreign Investment Promotion Agency of BiH (FIPA) Gordan Milinić with his associates and a member of the FIPA Board visited the Central Bank of Bosnia and Herzegovina.

At the meeting, Mr Milinić informed the Governor PhD Senad Softić and his associates of the Agency's activities in the field of attracting foreign investors and the support that the Agency provides to investors since starting-up until the project implementation. He stressed that the main objectives of FIPA are to bring as much as possible of foreign investors and more important increase of foreign investments. Therefore, the Agency has intensified its work and launched activities in order to make Bosnia and Herzegovina a better place for a safe investment.

The Governor Softić stressed the importance of improving cooperation among all institutions to improve the inflow of foreign investments and to promote Bosnia and Herzegovina as a destination of interest to foreign investors. It is stressed out the importance of involving all relevant parties in presenting data that influence the creation of the overall image of BiH and that serve as an indicator when making investment decisions.

It was talked on comprehensive statistics managed by the Central Bank of BiH, as one of the important duties, especially statistics of direct foreign investments, which occupies an important place in the activities of FIPA. The Agency was informed about the advanced statistics related to foreign investments and it was agreed to exchange data in continuing the good cooperation between the two institutions.

Taking into account the downward trend in foreign investments in BiH in recent years, participants at the meeting agreed that attracting foreign investment is an important task for all institutions of BiH.

The Mayor informed the representatives of FIPA on new projects that they have and for which they are seeking potential the investors, as well as on possible greenfield and brownfield locations for investments.

The Municipality has potential for agriculture and food production, then wood and metal-processing sector and the chemical industry.
